

SAP is the world's leading provider of business software solutions. SAP® solutions are designed to meet the demands of companies of all sizes—from small and midsize businesses to global enterprises. Powered by the SAP NetWeaver™ open integration and application platform to reduce complexity and total cost of ownership and empower business change and innovation, mySAP™ Business Suite solutions are helping enterprises around the world improve customer relationships, enhance partner collaboration and create efficiencies across their supply chains and business operations. The unique core processes of various industries, from aerospace to utilities, are supported by more than 25 SAP industry solutions. Today, more than 23,400 customers in over 120 countries run more than 79,800 installations of SAP® software. With subsidiaries in more than 50 countries, the company is listed on several exchanges, including the Frankfurt stock exchange and NYSE under the symbol "SAP." As a market leader in solutions that link RFID data to business application software, SAP is actively supporting standards bodies that are seeking to develop ways to implement this promising technology in a practical and responsible way. In addition, SAP is dedicated to leading stakeholders in discussions that will contribute to clear standards, consumer protection, and data privacy. SAP is hosting an open community (www.sap.com/community/rfid) on the benefits and implications of radio frequency identification (RFID) applications. This discussion will enable customers, partners, vendors, and other stakeholders to collaborate and share information on RFID-related topics – including privacy issues. Additional information at: <http://www.sap.com>
Information on SAP solutions for **RFID** is available at <http://www.sap.com/rfid>.
